I certify that the above is a true copy  
of the original plat in this office.  
Surveyor General's office,  
Detroit, Nov. 1, 1849

Lucius Lyon,  
Sur. Genl.

Surveyed in 1843 by Nathl. S. Squibb, D.S.

VINCEMMES, IND., June 22, 1911.

Mr. Gilbert H. Hendren,  
Indianapolis, Indiana.

Dear Sir:-

From the examination of the plats in my office and my recollection of the approximate location of the piece of real estate referred to by Mr. Olive in our conversation in your office last Friday as ~~not~~ having been sold by the State of Indiana I think he had in mind Lot No. one (1) of fractional Section Three (3) Township Two (2) North, Range Eight West, containing eighteen (18) and eighty hundredths (80) of an acre instead of Fifteen (15) acres, as I do not find any fractional part of a Section in that town and range containing fifteen acres and the eighteen (18) acres and eighty hundredths corresponds in location with the tract he pointed out upon the records in your office. A patent (for Lot One (1) fractional Section 3 in Township 2 North of Range 8 West was issued by the United States to John Steen on the 25th day of May, 1841, and recorded on the 11th day of May, 1843, in Deed Record M page 263. My records do not show how John Steen was divested of his title.

Respectfully,

Chas. G. McCord

Make Plat of Land

Write County Auditor and ask him if  
he received appraisement books to have  
18<sup>00</sup> acres appraised (then describe land)  
If not done, please do so at once,  
and send appraisement to me by earliest  
mail. H. Olive,
